COLLEGE OF PHARMACY
A Unit of the University System of Georgia
THE UNIVERSITY SYSTEM OF GEORGIA

Board of Regents

John Henry Anderson, Jr., Hawkinsville; Marie W. Dodd, Atlanta; Joseph D. Greene, Thomson; Jesse Hill, Jr., Atlanta; John E. Skandalakis, Atlanta; Arthur M. Gignilliat, Jr., Savannah; William T. Divine, Jr., Albany; John H. Robinson III, Americus; Jackie M. Ward, Atlanta; Elridge W. McMillan, Atlanta; Edgar L. Rhodes, Bremen; Lloyd L. Summer, Jr., Rome; Thomas H. Frier, Douglas; Sidney O. Smith, Jr., Gainesville; Julius F. Bishop, Athens

Officers and Staff

John E. Skandalakis, Chairman; Sidney O. Smith, Jr., Vice Chairman; Vernon D. Crawford, Chancellor; H. Dean Propst, Vice Chancellor; Henry G. Neal, Executive Secretary; Shealy E. McCoy, Vice Chancellor - Fiscal Affairs and Treasurer; W. Ray Cleere, Vice Chancellor - Academic Affairs; Frank C. Dunham, Vice Chancellor - Facilities; Howard Jordan, Jr., Vice Chancellor - Services; Thomas F. McDonald, Vice Chancellor - Student Services; Harry B. O'Rear, Vice Chancellor - Health Affairs; Haskin R. Pounds, Vice Chancellor - Research and Planning

THE UNIVERSITY OF GEORGIA

Officers of General Administration

President
Frederick C. Davison, President
J. Ralph Beaird, University Professor of Law
James L. Carmon, Assistant to the President
Albert B. Jones, Assistant to the President
James B. Kenney, Assistant to the President

Vice President for Academic Affairs
Virginia Y. Trotter, Vice President
M. Louise McBee, Associate Vice President
Sidney E. Brown, Associate Vice President
James H. Buck, Associate Vice President
Leroy Ervin, Jr., Assistant Vice President

Vice President for Research
Nathan W. Dean, Acting Vice President
William O. Burke, Assistant Vice President

Vice President for Services
S. Eugene Younts, Vice President
John D. Burke, Associate Vice President

Vice President for Development and University Relations
H. Perk Robins, Vice President
Louis T. Griffith, Assistant Vice President

Vice President for Business and Finance
Allan W. Barber, Vice President

Vice President for Student Affairs
Dwight O. Douglas, Vice President
William R. Mendenhall, Associate Vice President

Registrar
Bruce T. Shutt, Registrar and Associate Vice President for Student Affairs
William C. Marshall, Associate Registrar
Gary D. Moore, Associate Registrar

Admissions
Morris O. Phelps, Director
Claire C. Swann, Associate Director

Libraries
David F. Bishop, Director

The University of Georgia, the nation’s oldest state-chartered university, celebrates its bicentennial in 1985. A 16-month calendar of events began at Commencement, 1984 and will conclude in October 1985.
The University of Georgia is committed to the principle of affirmative action and shall not discriminate against otherwise qualified persons on the basis of race, color, religion, national origin, sex, age, physical or mental handicap, disability, or veteran's status in its recruitment, admissions, employment, facility and program accessibility, or services.

While every effort is made to provide accurate and current information, the University reserves the right to change, without notice, statements in the Bulletin concerning rules, policies, fees, curricula, courses, calendar, or other matters. Students enrolled at the University agree to comply with the University's rules and regulations and to accommodate to any changes necessary.

THE UNIVERSITY SYSTEM OF GEORGIA

The University System of Georgia includes 33 state-sponsored, public institutions located throughout Georgia—4 universities, 14 senior colleges and 15 junior colleges.

A 15-member constitutional Board of Regents—one from each of the state’s 10 Congressional Districts and five from the state-at-large—governs the University System which was established in 1932. Board members are appointed by the Governor, subject to state senate confirmation, for seven year terms.

The Chairperson, the Vice Chairperson, and other officers of the Board are elected by its membership. The Chancellor, who is not a Board member, is the chief executive officer of the Board and chief administrative officer of the University System.

The overall programs and services of the University System are offered through three major components: Instruction; Public Service/Continuing Education; Research.

INSTRUCTION includes programs of study leading to degrees, ranging from the associate (2-year) to the doctoral level, and certificates.

Requirements for admission to instructional programs are set by institutions, pursuant to policies of the Board of Regents which sets minimum academic standards and leaves each institution the prerogative of establishing higher standards. Application for admission should be made directly to institutions.

A Core Curriculum, defining freshman and sophomore courses for students who seek degrees beyond the associate level, is in effect for all University System institutions. This 90-hour Curriculum includes 60 in general education—humanities, mathematics, natural and social sciences—and 30 in the student’s chosen major area. It facilitates transfer of freshman and sophomore credits within the University System.

PUBLIC SERVICE/CONTINUING EDUCATION includes non-degree programs, special college-degrees, credit courses, and institutional outreach programs.

Non-degree activities would include short courses, conferences, seminars, lectures and consultative services, in many interest areas. These activities, usually of short duration, are designed to meet special educational, informational and cultural needs of people served by institutions. All institutions conduct some non-degree public service/continuing education. College-degree-credit courses are typically offered through extension center programs and teacher education consortiums.

RESEARCH encompasses investigations conducted for the discovery and application of knowledge. These investigations include clearly defined projects in some cases and non-programmatic activities in other cases. Research is conducted on campuses and at other locations and projects related to a large variety of educational objectives and societal needs. Most research is conducted by the 4 universities though some senior colleges also have research efforts underway.
Board of Regents' policies for government, management and control of the University System and the Chancellor's administrative actions provide institutions a high degree of autonomy. The President is the executive head of each institution and is recommended by the Chancellor and appointed by the Board.

The University System Advisory Council, with 34 committees, engenders continual dialogue on major academic and administrative matters and makes recommendations to the Chancellor, who transmits them to the Board as appropriate, regarding academic and administrative operations in the System. The Council consists of the Chancellor, the Vice Chancellor, and all Presidents as voting members. It includes other officials of institutions as nonvoting members. The Council's 21 academic and 13 administrative committees are composed of institutional representatives, typically one from each unit, and deal with matters of System-wide application.

State appropriations for the University System are requested by and made to the Board of Regents. Allocations of the appropriations are made by the Board to institutions. Approximately 52 percent of state appropriations are allocated for instruction. In fiscal 1980-81, the percentages of all funds for instruction showed 77 percent from state appropriations, 20 percent from student fees and 3 percent from other internal income.

Matriculation fees and nonresident tuition fees for students at all institutions are established by the Board of Regents. All students pay matriculation fees while out-of-state students pay nonresident tuition in addition. Other fees for student services and activities are established by institutions, subject to Board of Regents' approval. Non-mandatory fees established by institutions are subject to approval of the Board of Regents office.
OFFICERS OF ADMINISTRATION
Ansel, Howard Carl, Ph.D., Professor and Dean
Entrekin, Dunward Neal, Ph.D., Professor and Associate Dean
Blanton, Charles Dewitt, Jr., Ph.D., Professor and Director of Research and Graduate Studies
Wickliffe, Billie Winell, Ph.D., Assistant Professor and Assistant to the Dean
Hammond, Alfred Gene, B.B.A., Assistant to the Dean
Waters, Kenneth Lee, Ph.D., Professor Emeritus and Dean Emeritus

Kotzan, Jeffrey Anthony, Ph.D., Professor

Pharmaceutical Services
Gammill, Charles Goodrich, M.S., Public Service Representative, Co-staffed with the Georgia Center for Continuing Education

Learning Services
Perey, Sheryl Louise, B.A., Learning Services Coordinator
GENERAL INFORMATION

HISTORY
In 1903, the committee on laws and disciplines of the board of Trustees authorized the organization of a School of Pharmacy at The University of Georgia at Athens. At the same time, Dr. S. C. Benedict was appointed to the chair of Materia Medica in the School. Space was allocated in Terrell Hall for the School and six students enrolled for the 1904-1905 year. The educational objective of those six registrants was to matriculate for two years and receive a Ph.G. degree.

In January 1907, due to an illness of Dr. Benedict, Mr. Robert C. Wilson was elected Instructor in Pharmacy to relieve Dr. Benedict of many of the classroom activities. Dr. Benedict remained as dean until 1914, when Professor Wilson was placed in charge of the Department of Pharmacy as director.

Dean Wilson’s continuous struggle to improve pharmacy in Georgia led to development of the first four-year required pharmacy degree in the nation, beginning in 1926. In 1939, the School moved to quarters in New College and was accredited by the American Council on Pharmaceutical Education, a rating which has been maintained continuously since that time.

Upon Dean Wilson’s retirement in 1948, Dr. Kenneth L. Waters was named dean of the School of Pharmacy. Under Dean Waters’s guidance the school grew to the point where a new facility was deemed essential. The building was completed in 1964. One year later the first students of the five-year pharmacy program graduated.

Upon Dean Waters’s retirement in 1977, Dr. Howard C. Ansel was named Dean. As a result of the broadening of the scope of its programs the School title was changed to College of Pharmacy in 1983.

PURPOSE
The purpose of The University of Georgia College of Pharmacy is to provide for the comprehensive academic needs of the profession of pharmacy.

Manpower needs of the profession are supplied through the College’s professional baccalaureate and doctor of pharmacy education programs, which prepare students for the practice of pharmacy, and through its graduate program, which prepares individuals for professional specialization and for a career in teaching and research. The postgraduate educational needs of the profession are met by the College’s continuing education and service programs. Faculty research supports all of these programs and contributes to the advancement of the body of pharmaceutical knowledge.

FACILITIES
The College of Pharmacy is housed in facilities completed and occupied in the spring of 1964. Two basic concepts were incorporated into the design of the new building: 1) that it should be a functional facility conducive to learning, and 2) that as many laboratory and research areas as possible should be on display. The first was considered basic to any educational building; the second was intended to stimulate interest in pharmacy among nonpharmacy students and interest in graduate work among professional baccalaureate students.

The three floors and penthouse of the building contain a total of 96,000 square feet of space.

PROGRAMS OF STUDY
The Bachelor of Science in Pharmacy degree is awarded to students who successfully complete the five-year study of prescribed courses. The first two years (pre-pharmacy) may be completed at any accredited institution of higher education. The last three years (professional) must be in residence at the College of Pharmacy. Nine quarters of residence in the professional baccalaureate program are required by the American Council on Pharmaceutical Education. The professional
The baccalaureate program is accredited by the American Council on Pharmaceutical Education.

The Doctor of Pharmacy degree is awarded to students who have satisfactorily completed a six quarter post baccalaureate program of study. Emphasis is placed on clinical pharmacy practice.

The University of Georgia Graduate School offers the Master of Science degree and Doctor of Philosophy degree in various specialty areas of the College of Pharmacy.

### ADMISSION TO THE BACCALAUREATE PROGRAM

To be admitted to the professional baccalaureate program in the College of Pharmacy, a student must complete pre-pharmacy requirements. At The University of Georgia, the pre-pharmacy program is administered through the College of Arts and Sciences. The two years of pre-pharmacy education require satisfactory completion of not less than 90 quarter hours of academic work counting toward the pharmacy degree. In addition, students must meet the general requirements for physical education.

Applicants to the professional baccalaureate program must take the Pharmacy College Admission Test (PCAT). The fall offering date is the preferred time. In addition to the applicant’s grade point average, the admissions committee will utilize the PCAT scores and recommendations. The College of Pharmacy accepts students into its professional baccalaureate program for either summer or fall quarter. Those entering in the summer are expected to follow a continuous program, i.e., nine consecutive quarters.

Application to the College of Pharmacy should be submitted by March 15. Transcripts showing all college work taken should accompany the application. Students may make application to the Dean of the College of Pharmacy when they have completed four quarters of academic work.

Applicants for admission to the College of Pharmacy who are known to have been officially dismissed from another pharmacy school will not be accepted. A student who gains entrance to the College by misrepresentation of facts may be dismissed immediately.

*The College of Pharmacy does not allow credit for ENG 100 toward satisfying degree requirements.

**MAT 253 suggested as a substitute if student qualifies.
ADMISSION TO THE DOCTOR OF PHARMACY PROGRAM

Persons holding a baccalaureate degree in pharmacy from an accredited institution may apply to the Pharm.D. academic program. Inquiries should be sent to the office of the dean.

ADMISSION TO THE GRADUATE PROGRAM

In addition to its professional degrees, the College of Pharmacy offers opportunities for advanced study in each of its five departments. These studies are open to individuals holding baccalaureate science degrees. Programs are available which lead to the M.S. and Ph.D. degrees. Individuals interested in pursuing one of these programs should apply directly to the Graduate Coordinator of The University of Georgia College of Pharmacy.

While the provisions of this bulletin will ordinarily be applied as stated, The University of Georgia reserves the right to change any provision listed in this bulletin, including but not limited to academic requirements for graduation, without actual notice to individual students. Every effort will be made to keep students advised of any such changes. Information on changes will be available in the office of the Dean, College of Pharmacy, The University of Georgia, Athens, Georgia 30602. It is especially important that each student note that it is his or her responsibility to keep informed of current graduation requirements for his or her particular degree program.
In order to receive the Bachelor of Science degree from the College of Pharmacy, a student must have earned not less than 231 quarter hours of required credit, exclusive of physical education, with a cumulative grade point average of at least 2.0.

ACADEMIC LOAD

All baccalaureate students in the College of Pharmacy must take a minimum academic load of twelve credit hours per quarter for a minimum of nine quarters unless excused by the dean.

PHARMACY EXTERNSHIP AND CLINICAL PROGRAMS

As a part of the baccalaureate curriculum, pharmacy students are required to participate in externship and clinical programs which provide the student with educational experiences in practice settings such as community pharmacies, hospital pharmacies, clinics, and teaching hospitals. During the course of their academic program, students may be required to obtain their externship and/or clinical education at an out-of-town location deemed by the faculty to be most suitable for the desired experience and training. Among the facilities presently being used are the teaching hospitals and clinics associated with the Medical College of Georgia, located in Augusta.

PHARMACY INTERNSHIP

In order to become licensed to practice pharmacy in the state of Georgia, 1500 hours of internship must be earned as a full-time employee under the supervision of a pharmacist. Credit for internship may be received only after a student has been accepted into a College of Pharmacy. Students are encouraged to satisfy internship requirements during the summers. A total of 480 hours of credit toward internship will be awarded for work performed while registered for academic credit in an authorized externship program. An intern license is required for participation in the externship program.

All intern pharmacists must contact the Joint Secretary, State Examining Boards, 166 Pryor Street, S.W., Atlanta, Georgia 30303 in order to receive a license. The pharmacist supervising the intern must also notify the joint secretary that the intern is under his/her supervision.

SCHOLARSHIP REQUIREMENTS

In addition to the general University requirements relative to scholarship, the following requirements must be met by all baccalaureate students.
All first professional year students must have earned a minimum grade point average of 1.8 in all professional and related courses in order to progress to the second professional year.

Similarly, all second year pharmacy students must have earned at least a 2.0 average since entering the College of Pharmacy in order to progress to the third professional year.

A student must earn a grade of at least 2.0 in all required PHR courses in order to receive graduation credit.*

For students in academic difficulty, conditions for readmission and continuance in the pharmacy program will be set during a personal interview with the dean and/or the Pharmacy Faculty Academic Committee.

REGENTS' TESTING PROGRAM

This is a standard test of English reading and composition skills of the University System of Georgia. All students seeking an undergraduate degree must pass the exam during their sophomore year. Transfer students to the University System schools must take the test during their first quarter in residence. Failure of the test will require remediation. Students having a prior baccalaureate degree from a regionally accredited institution may be exempt from the test.

LIMITATION OF STUDENT EMPLOYMENT

Since it is realized that classroom work must receive major emphasis by all students, employment which will interfere with their scholastic program should not be undertaken. Students who make a poor scholastic record as a result of working will be required to reduce their work load.

ACADEMIC PREPARATION

Students are expected to maintain a schedule of home study so they are prepared for daily classes and are always up-to-date in their coursework. This requires students to establish early study habits best suited to their own capabilities and to adjust to the demands of the prescribed curriculum. The successful study of pharmacy necessitates the assimilation of a large amount of subject matter. The curriculum is arranged in a sequence to insure a progression of courses which results in a meaningful correlation between the basic sciences and clinical areas of study and application. Courses do not end with final examinations each quarter, but supplement all others in the total professional curriculum.

CLASS ATTENDANCE

Regular attendance at classes, laboratories (including clinics) and examinations is a student obligation, and the unexcused absence, or "cut," is not recognized as a student privilege by the faculty of the College of Pharmacy. Students are expected to give reason for their absence to individual instructors and to make up all work missed due to the absence. Individual faculty will set the attendance standards for each class.

DRESS

Students of pharmacy are expected to dress neatly and professionally at all times. Certain classes and laboratories may require specific attire.

ATTITUDE AND CONDUCT

Students who conduct themselves, either personally or professionally, in a manner unbecoming a professional person may be subject to dismissal from the program. Students in the College are also governed by the rules and regulations of the University. Special attention is directed to the general Undergraduate Bulletin and to the Student Handbook.

*This includes MIB 402, STA 300, ZOO 312-312L and all pharmacy courses.
The grading system for The University of Georgia is as follows:

A  Excellent        D  Passing
B  Good            F  Failure
C  Satisfactory   WF  Withdrew, failing
I  Incomplete. This symbol indicates that a student was doing satisfactory work but, for non-academic reasons beyond his/her control, was unable to meet the full requirements of the course. If an I is not satisfactorily removed after three quarters of residence, the symbol I will be changed to the grade F by the appropriate official.
W  This symbol indicates that a student was permitted to withdraw without penalty. Withdrawals without penalty will not be permitted after the midpoint of the quarter (date to be specified in the Schedule of Classes) except in cases of hardship as determined by the appropriate official.
WF  This grade indicates that the student was permitted to withdraw from the course while doing unsatisfactory work. Withdrawal from a course under these circumstances is equivalent to a failure. This grade is included in the academic average.
S This symbol indicates satisfactory participation in certain required courses. Normally S grades are given in a limited number of professional, seminar, or graduate-level courses. Credit is included in hours earned. The grade is not included in the academic average.

U This symbol indicates unsatisfactory performance in certain required courses in which S grades may normally be given. No credit is given. The grade is not included in the academic average.

V This symbol indicates an audit. No credit is given. The grade is not included in the academic average.

K This symbol indicates that a student was given credit for the course via a credit by examination program approved by the faculty, e.g., CLEP, AP, Proficiency, etc.

ER This symbol indicates an error in reporting. See your dean.

Cumulative grade average is based on all residence hours attempted at the University exclusive of S and U grades.

For purposes of computing grade point averages, letter grades are converted into numerical equivalents:

<table>
<thead>
<tr>
<th>Letter</th>
<th>Numerical Equivalent</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>4.0</td>
</tr>
<tr>
<td>B</td>
<td>3.0</td>
</tr>
<tr>

<tr>
<td>D</td>
<td>1.0</td>
</tr>
<tr>
<td>F</td>
<td>0</td>
</tr>
<tr>
<td>WF</td>
<td>0</td>
</tr>
</tbody>
</table>

*Not computed

ACADEMIC PROBATION

University-wide regulations provide that a student is placed on academic probation at the end of any quarter in which his/her cumulative GPA is below 2.0. A student may remove himself or herself from academic probation by achieving a 2.0 cumulative average. Transfer credits are not included in the computation of the cumulative grade average.

ACADEMIC DISMISSAL

Pharmacy students will be dismissed after two quarters in residence at the University if their cumulative average is below that required for a designated number of total hours attempted as follows:

<table>
<thead>
<tr>
<th>Dismissal Standards</th>
</tr>
</thead>
<tbody>
<tr>
<td>Hours Attempted</td>
</tr>
<tr>
<td>0 - 30</td>
</tr>
<tr>
<td>31 - 59</td>
</tr>
<tr>
<td>60 - 89</td>
</tr>
<tr>
<td>90 - 119</td>
</tr>
<tr>
<td>120 and above</td>
</tr>
</tbody>
</table>

Students will be considered enrolled for any quarter in which they received a grade or grades other than "W".

Students whose cumulative average does not meet the minimum listed above will not be subject to dismissal for academic reasons if they earn a minimum grade point average of 2.30 while taking an academic load of at least ten (10) credit hours each quarter.

Upon receiving a First Dismissal, a student will be suspended from the University for a minimum of two quarters. At the end of the suspension, readmission may be granted at the discretion of the academic dean.

After a Second Dismissal, only through appeal to the University Educational Affairs Committee can permission to return to the University be granted. A minimum of one calendar year must lapse before a student on Second Dismissal may petition for readmission.
EXPENSES

Expenses for pharmacy students at The University of Georgia are higher than for most other students. The following (not including travel, clothing, and incidentals) is an estimate of quarterly expenses.

- Total Resident Fees: $529.00
- Total Non-Resident Fees: $1,402.00
- Residence Halls: $278.00-$388.00
- Meals: $333.00-$396.00
- Books: $75.00
- Lab Clothing and Equipment: $25.00

The University reserves the right to change its tuition and fees at the beginning of any quarter and without previous notice. This right will be exercised cautiously.

AID

Students attending the University have nearly half the actual expense of their college education shared by the state of Georgia. Through the tax support of Georgians, The University of Georgia can offer a quality education economically.

In addition, the University attempts to provide financial help for any student who needs aid and is progressing normally toward graduation. No qualified student need hesitate to apply for financial aid if money is needed to pursue an education in pharmacy.

Information concerning financial aid and work-study for pharmacy students is available through the Office of Student Financial Aid, Academic Building, The University of Georgia, Athens, Georgia 30602.

LOCAL SCHOLARSHIPS AND LOANS

Certain hometown firms and organizations offer scholarships and loans to deserving students. Students are urged to investigate hometown possibilities.

Applications for scholarships and loans should be made as soon as possible since funds are limited and six weeks are required for processing.
STUDENT ACTIVITIES

PROFESSIONAL ORGANIZATIONS

During their academic career in the College of Pharmacy, students are encouraged to begin to develop interest in professional activities. The primary route by which this interest may be expanded is through the Student Pharmaceutical Association which is affiliated with both the Georgia and American Pharmaceutical Associations. Active participation in this student function will not only stimulate interest in the profession but develop leadership and character.

Efforts to advance the pharmacy profession educationally, fraternally, and socially led to the installation of chapters of two professional fraternities, Phi Delta Chi and Kappa Psi; a sorority, Lambda Kappa Sigma; and a leadership fraternity, Phi Lambda Sigma. These organizations instill in their members a respect for diligence, sincerity, and brotherhood and assist in developing leadership characteristics. They sponsor activities beneficial to the College, the University, and the profession.

HONOR SOCIETIES

Pharmacy students who comprise the top twenty percent of their class academically may be invited to join Rho Chi, the national honorary pharmaceutical society. The invitation is usually extended during the last quarter of the second professional year. Pharmacy students are also eligible for membership in Phi Kappa Phi national honor society and various leadership societies on campus.

AWARDS

Beginning in 1948 and continuing annually thereafter, the College of Pharmacy has sponsored an awards banquet at which outstanding academic achievement, leadership and devotion to the profession by students are recognized. These awards may be scholarships, trophies, certificates, books or monetary. By design, the majority of the awards presented at the banquet are to seniors, but some are designated for first and second year students.

---

1. Classification of “First Year Pharmacy Student” means registered in the School for the first time.
2. Classification of “Second Year Pharmacy Student” means completion of all 300 level courses.
3. Classification of “Third Year Pharmacy Student” means completion of all 400 level courses.
COURSES OF INSTRUCTION

The curriculum includes professional and graduate courses. Professional courses are numbered 300-599, and graduate courses are numbered 600-999.

MEDICINAL CHEMISTRY AND PHARMACOGNOSY

Medicinal chemistry and pharmacognosy are unique among the specialized areas of chemistry and pharmacy in that they require a significant background in the biological sciences as well as a thorough understanding of chemistry. Areas of specialization for graduate study include the synthesis of new compounds of medicinal interest, the relationships between physical and chemical properties and biological activity, studies on the mechanisms of drug action, and the isolation, purification and identification of the constituents of natural medicinal and poisonous agents.

Required Professional Courses

324, 325. Introductory Medicinal Chemistry I, II. 3 hours each.  
Prerequisite: First Year Pharmacy Student.  
Corequisite for 324: PHR 334.  
An introduction to the basic principles of inorganic and organic chemistry as they apply to pharmaceutical systems. Discussions concerning physiochemical properties in pharmaceutical and biological systems are presented with emphasis on the nature of the roles played by inorganic and organic compounds on drug activity. Brief discussions of radiopharmaceuticals, organic nomenclature and drug analysis are also presented.  
STEWART AND STAFF

334. Medicinal Chemistry Laboratory. 1 hour.  
Corequisite: PHR 324.  
The principles and techniques of inorganic and organic chemistry are reviewed and applied to pharmaceutical systems.  
GIBSON

347, 447. Biopharmacy I, II. 4, 3 hours.  
Prerequisite: First Year Pharmacy Student.  
A study of intermediary metabolism and metabolic regulation. Drug interaction with biochemical systems will be introduced. Use of dietary supplements and drugs in the treatment of nutritional and biochemical abnormalities of pharmaceutical interest will be discussed.  
THOMPSON

404. Pharmacognosy. 3 hours.  
Prerequisite: PHR 325, 347, 350.  
The study of drugs of plant and animal origin with emphasis on their chemistry, pharmacological action, pharmaceutical and therapeutic uses. Major consideration is given to vitamins, naturally occurring oncolytic agents, plant gums, mucilages and resins used pharmaceutically, and those alkaloids, glycosides and enzymes currently used as drug products.  
GIBSON

433/633, 434/634, 435/635. Principles of Drug Action. 5 hours each.  
(See listing under Pharmacology)

445/645. Pharmacology Laboratory. 1 hour.  
(See listing under Pharmacology)

575/775. Chemotherapy. 5 hours.  
Prerequisite: MIB 402, PHR 435/635.  
A course dealing with the drugs used to treat and cure infectious diseases, encompassing a discussion of the chemistry, mechanism of action, pharmacology and therapeutic applications of antiseptic, antibacterial, antifungal, antiprotozoan, anthelmintic, antiviral and oncolytic agents. Also included are immunizing biologicals and a review of the classifications of infectious disease organisms.  
BLANTON, CHU, GIBSON
Elective Courses

504. Abused Drugs. 3 hours.
Prerequisite: PHR 433/633.
A discussion of the history, abuse, uses, effects, and detection of abused drugs.
STEWART

505. Non-Prescription Drugs. 3 hours.
Prerequisite: Second Year Pharmacy Student.
A discussion of the non-prescription drug products sold in pharmacies and intended primarily as self-medication drugs.
GIBSON

506. Microscopic Pharmacognosy. 3 hours.
Prerequisite: PHR 404 or P.O.D.*
Application of microchemical and specialized techniques in the detection, separation and microscopic identification of drugs.
GIBSON

507. Drug Assay. 3-5 hours.
Prerequisite: First Year Pharmacy Student.
Laboratory exercises in identification of all types of drugs in dosage forms and biological fluids.
STEWART

509. Materia Medica. 3 hours.
Prerequisite: PHR 404, 433/633.
A study of the history, identification, collection, commerce and constituents of medicinal plants of the present and past.
GIBSON

511. Historical Perspectives of Drug Discovery. 3 hours.
Prerequisite: Second Year Pharmacy Student or P.O.D.*
A study of selected historical events and personalities associated with the discovery of major drugs and drug classes.
BLANTON AND STAFF

549. Radio-Pharmaceuticals. 3 hours.
Prerequisite: Second Year Pharmacy Student.
Procedures and techniques involved in the handling and use of radioisotopes in pharmaceutical practice.
LaROCCA

Graduate Courses

801. Medicinal Chemistry. 3 hours.
Prerequisite: P.O.D.*
A detailed study of the theoretical aspects of medicinal chemistry designed specifically for the student of medicinal chemistry lacking a pharmacy background.
LaROCCA

804. Pharmaceutical Control and Analysis I. 5 hours.
Prerequisite: P.O.D.*
Lectures and laboratory instruction are devoted to the identification and analysis of drugs by proton magnetic resonance, infrared and ultraviolet spectroscopic analysis.
THOMPSON

805. Pharmaceutical Control and Analysis II. 5 hours.
Prerequisite: P.O.D.*
Lectures and laboratory instruction are devoted to the separation, identification and analysis of drugs by thin-layer, gas and high-performance liquid chromatographic methods.
HONIGBERG

806. Pharmaceutical Control and Analysis III. 5 hours.
Prerequisite: P.O.D.*
Lectures and laboratory instruction are devoted to the identification and analysis of drugs by mass spectrometry, fluorescence, phosphorescence and atomic absorption analysis.
STEWART

807. Pharmaceutical Control and Analysis IV. 5 hours.
Prerequisite: P.O.D.*
Lectures and laboratory instruction are devoted to the separation, identification and analysis of drugs and drug metabolites in biological samples.
HONIGBERG, STEWART

809AB. Advanced Medicinal Chemistry. 4 hours each.
Prerequisite: PHR 435/635 or P.O.D.*
A detailed study of the correlation of chemical structure with biological activity will be presented with special emphasis on the relation of physicochemical properties to biological response.
BLANTON, CHU, HONIGBERG, RUENITZ

811. Heterocyclic Medicinal Chemistry. 3 hours.
Prerequisite: CHM 444/644 or P.O.D.*
A course designed for the study of the chemical nature and behavior of the main nitrogen, oxygen and sulfur containing heterocyclic compounds of medicinal significance.
BLANTON

812. Mechanisms of Biological Degradations. 3 hours.
Prerequisite: BCH 801, CHM 431/631 or P.O.D.*
Lectures discussing the chemical mechanisms of biochemical transformations of small molecules. Attention will be focused on research reports on mammalian systems.
RUENITZ

*Permission of department.
816. Organic Chemistry of Synthetic Medicinal Agents. 3 hours.
Prerequisite: CHM 430/630 and P.O.D.*
Preparation and physiochemical properties of organic medicinal agents of synthetic origin.
STAFF

830. (FS) Radiation Principles. 5 hours.
Two lectures and two 4-hour lab periods.
Prerequisite: BCH 401/601 or equivalent.
Principles and techniques of radiochemistry and radiobiology.
LaROCCA

321. Introduction to Dosage Forms. 4 hours.
Prerequisite: PHR 320.
The various dosage forms, classes of pharmaceutical preparations, general methods of preparation and appropriate examples of currently used products are introduced. The laboratory stresses compounding techniques and the dispensing of prefabricated medications.
TEBO, WHITWORTH, WICKLIFFE

406/606, 407/607. Pharmaceutics I, II. 5 hours each.
Prerequisite for 406: PHR 321, 325, STA 300.
Prerequisite for 407: PHR 347, 350.
Prerequisite for 606: P.O.D.*
Prerequisite for 607: PHR 606.
The general consideration of the underlying principles of dosage form design, compounding, and technology. Laboratory work involves the preparation and evaluation of the various dosage forms and the dispensing of compounded prescriptions. Prescription handling and dispensing experience at the University Health Service is a part of this sequence.
CAPOMACCHIA, HARDEE, JUN, PRICE, VALLNER

525/725. Clinical Pharmacokinetics. 3 hours.
Prerequisite: PHR 407/607; 435/635.
Clinical Pharmacokinetics deals with the concepts and techniques of the kinetics of absorption, distribution and elimination of drugs as applied to patient care.
JUN, VALLNER

Elective Courses

522/722. Industrial Pharmacy I. 3-5 hours.
One lecture and six to nine lab hours weekly.
Prerequisite: PHR 407/607; for graduate students: P.O.D.*
Lectures and lab are concerned with the formulation and production of powders, capsules, compressed tablets and coated tablets. Production equipment and quality control procedures and problems are also studied.
PRICE

523/723. Industrial Pharmacy II. 3-5 hours.
Variable lecture and lab hours weekly.
Prerequisite: PHR 407/607; for graduate students: P.O.D.*
To acquaint students with specialized pharmaceutical systems, processes and control procedures involved with liquid, semisolid and aerosol dosage forms.
PRICE

*Permission of department.
526/726. Sterile Products and Techniques. 5 hours.
Two-hour lectures and nine hours lab.
Prerequisite: Third year Pharmacy Student or P.O.D.*
The course deals with the manufacture of injecti-
ble pharmaceutical products and includes formu-
lation; environmental and product testing; ster-
ilization and packaging techniques.
WHITWORTH

530/730. Manufacture of Cosmetics. 3-5 hours.
Prerequisite: PHR 406/606.
A study of cosmetic formulations and methods of
manufacture. Examples of several types of cos-
metic products will be prepared in the laboratory.
WHITWORTH

Graduate Courses

823, 824. Advanced Physical Pharmacy. 5 hours
each.
Discussion of advanced physical chemical
methods as they apply to pharmaceutical prob-
lems and phenomena.
CADWALLADER, CAPOMACCHIA, HARDEE,
PRICE, VALLNER

826. Pharmacokinetics. 5 hours.
A study of the principles of kinetics of drug ab-
sorption, distribution and elimination, with em-
phasis on the design and evaluation of mathemat-
ical models.
JUN

829. Drug Complexation. 5 hours.
Prerequisite: PHR 435/635 or P.O.D.*
Principles of thermodynamics, equilibria and
kinetics in mechanisms of drug-biomacro-
molecule interactions. Methods, including direct
measurements, subtractive methods and electro-
static methods, for the study of drugs or other
small molecules and their interactions with
biomacromolecules are examined.
VALLNER

PHARMACOLOGY AND TOXICOLOGY

Pharmacology is the study of the action of drugs
and chemicals on the living organism, the effects
induced, and their therapeutic applications,
whereas toxicology emphasizes the deleterious
effects of chemicals on body organs and systems.
As scientific disciplines, these related areas are
based in the physical and biological sciences with
particular emphasis on physiology and chemistry.
Graduate studies and research areas are available
in neuro-pharmacology, behavioral pharma-
coology, biochemical pharmacology, cardiovas-
cular pharmacology, environmental and drug toxico-
logy, and chemical carcinogenesis.

Required Professional Courses

349, 350. Medical Physiology and Pathophysiology
I, II. 4 hours each.
Prerequisite: ZOO 312-312L or P.O.D.*
A study of human function in health and in com-
mmon disease states, emphasizing organ and sys-
tem interactions.
BUNCE, MOKLER, TACKETT

433/633, 434/634, 435/635. Principles of Drug Ac-
tion. 5 hours each.
Prerequisite for 433/633: PHR 325, 347, 350.
Prerequisite for 434/634: PHR 404, 447.
For graduate students: P.O.D.*
A study of the actions of drugs in current use,
emphasizing the chemical and pharmacological
principles related to stability, bioavailability,
structure-activity relationship, pharmacologic ac-
tion, therapeutic application and toxicology. The
drug categories included in PHR 433/633 are an-
tihistamines and related drugs, diuretics, en-
docrine hormones and related drugs. Categories
included in PHR 434/634 are autonomic, an-
ticoagulant, and cardiovascular drugs. PHR 435/
635 is devoted to central nervous system active
drugs. The courses are jointly taught by the
pharmacology and medicinal chemistry faculties.
CHU, HONIGBERG, ITURRIAN, JOHNSON,
LaROCCA, REIGLE, RUENITZ, TACKETT, WADE

445/645. Pharmacology Laboratory. 1 hour.
One three-hour laboratory each week.
Corequisite: PHR 435/635.
Experiments designed to demonstrate the action
of CNS, autonomic and cardiovascular drugs on
laboratory animals.
STAFF

Elective Courses

PHR 584. Toxicology of Commercial Products. 3
hours.
Prerequisite: PHR 433/633.
A study of the toxic mechanisms, toxic syn-
dromes, antidotes, and emergency and suppor-
tive therapy for poisonings with commonly oc-
curring household and farm products.
JOHNSON, ITURRIAN

Graduate Courses

649. Human Physiology I. 5 hours.
Prerequisite: BIO 102-102L, CHM 241 and 241L,
and P.O.D.*
Not open to students with credit for PHR 349.
Functions of the human nervous, neuromuscular
and digestive systems in health and in major dis-
ease states.
BUNCE, TACKETT

*Permission of department.
650. Human Physiology II. 5 hours. Four lectures and one discussion period.
Prerequisite: BIO 102-102L, CHM 241 and 241L, or
P.O.D.*
Not open to students with credit for PHR 350.
Function of the human cardiovascular, respiratory,
renal, endocrine, and reproductive systems in
health and in major disease states.
MOKLER
842. Cardiovascular Pharmacology. 5 hours.
Prerequisite: PHR 434/634 or P.O.D.*
A study of physiological control mechanisms of
the mammalian cardiovascular system and how
defects may lead to clinically identifiable disease
states. Experimental approaches are evaluated
and the actions of pharmacologically active
agents are discussed.
MOKLER, TACKETT
843. Advanced Neuropharmacology. 4 hours.
Prerequisite: PHR 435/635 or P.O.D.*
A study of the behavioral and neurochemical as-
pects of drug action in the central nervous
system.
ITURRIAN, RÉIGLE
844. Methods in Pharmacological Research. 5
hours.
Prerequisite: PHR 433/633 and STA 421/621 or
P.O.D.*
A review of classical and biochemical methods
used in evaluating compounds for their phar-
macologic activity.
STAFF
846. (VPH) Molecular Pharmacology. 5 hours.
Prerequisite: P.O.D.*
A detailed study of (a) the interaction of drugs
with tissue receptors, and (b) the absorption, dis-
tribution, metabolism and elimination of drugs by
the organism. (Spring quarter of even-numbered
years.)
BOOTH, JOHNSON, JUN, WADE

PHARMACY CARE ADMINISTRATION

Pharmacy care administration is concerned with
both the administrative aspects of pharmacy prac-
tice and the pharmacist's role in serving the pa-
tient's health needs. To accomplish these pu-
poses, undergraduate study in this area includes:
community and institutional pharmacy manage-
ment, pharmacy law, health care systems, phar-
macy ethics, and patient communication skills
and behavioral characteristics. Graduate studies
are offered in pharmacy care administration with
four options available for the students.

Required Professional Courses

390. Pharmaceutical Law. 3 hours.
Prerequisite: First Year Pharmacy Student.
A review of the various laws involved in phar-
maceutical prescription practice and a study of
the state and federal regulations including orga-
nization enforcement procedures. Consideration
is also given to case histories involving negligence
and malpractice.
STAFF
393. Administrative Pharmacy I. 2 hours.
Prerequisite: First Year Pharmacy Student.
A study of the form, content, nature and use of
financial statements. In addition, the student is
provided an explanation of the accounting pro-
cess of which the financial statements are the
result.
CARROLL
396. Administrative Pharmacy II. 4 hours.
Prerequisite: PHR 393.
The application of managerial principles to the
professional practice of pharmacy.
CARROLL, JOWDY
593/793. Pharmaceutical and Health Care Services.
3 hours.
Prerequisite: Third Year Pharmacy Student or
P.O.D.*
A study of the principles and methods involved in
the rendering of pharmaceutical and health care
services. Included are the social, economic, legal
and professional aspects and the study of the ac-
tivities of providers and consumers of such ser-
vices.
FINCHAM
597. Pharmacy Communications. 4 hours.
Corequisite: PHR 538.
An intensive examination of the behavior of the
pharmaceutical patient in terms of psychological
and sociological dynamics. Communication
models are employed to relate pharmacist
response to difficult patient types. The course
emphasizes the psychological component of
patient-pharmacist interactions. Student-pro-
duced video tapes are employed for class presen-
tation and evaluation.
KOTZAN

*Permission of department.
Elective Courses

590. Pharmacy Ethics. 3 hours.
Prerequisite: First Year Pharmacy Student.
This course deals with the problems faced by the community pharmacist as he strives to strike a balance between the demands of economic competition on the one hand and the demands of professional ethics on the other.
BRAUCHER

599. Advanced Administrative Pharmacy. 3 hours.
Prerequisite: PHR 396.
A study of administrative practices in community pharmacy.
CARROLL, JOWDY

Graduate Courses

777. Institutional Pharmacy Administration Residency. 15 hours.
Prerequisite: PHR 524/724 and Baccalaureate Pharmacy Degree or Pharm.D.
The application of administrative principles in the institutional environment. The residency involves observation and participation in a wide variety of institutional administrative functions. These include policy development and implementation, financial management activities, interdepartmental administrative activities, and the solution of representative administrative problems.
STAFF

850. Problems in Pharmaceutical Marketing. 5 hours.
Prerequisite: P.O.D.*
An in-depth examination of drug marketing experiences. Special emphasis is placed on the problems which arise in seeking a satisfactory relationship between the manufacturer, wholesaler, retailer and the institutional sectors. A competitive pharmacy computer model is an integral portion of the course.
CARROLL, JOWDY

851. Health Care Problems. 5 hours.
Prerequisite: P.O.D.*
A comprehensive examination of the state of the nation's health, the distribution of health care facilities, and the various programs, both public and private, designed to improve the quality and distribution of health care throughout the United States.
BRAUCHER

853. Research in Pharmacy Care Administration. 5 hours.
Prerequisite: STA 421/621.
An intensive study of research and methods of research in pharmacy care administration. The course includes the design, execution and statistical analysis of experiments relating to physicians, pharmacists, or drug consumers.
KOTZAN

PHARMACY PRACTICE

Pharmacy practice offerings are designed as capstone courses to integrate and apply all prior course material to the assessment of patient problems, prescription practice and communication of knowledge to both prescriber and patient. Graduate studies are intended to further prepare the practitioner for specialized practice and applied research in ambulatory, long term or acute care settings.

Required Professional Courses

400. Drug Information. 1 hour.
Prerequisite: Second Year Pharmacy Student.
Drug information retrieval, evaluation and communication.
COBB, MAY, WADE

437. Dispensing I. 4 hours.
Three hours lecture and three hours lab weekly.
Prerequisite: PHR 390, 400, 407, 434/634, 447.
An integration of the pharmaceutical sciences and the practice of pharmacy. Attention is directed toward the procedures and precautions necessary in providing pharmaceutical services in the community pharmacy and in various institutional settings. Special emphasis is placed on drug literature, drug interactions, drug product selection and drug therapy.
COBB, DICKERSON, McCOMBS, THOMAS

500ABCDE. Pharmacy Externship. 5 hours each, 15 hours (three courses) required.
At least 40 hours per week for 12 weeks.
Prerequisite: PHR 540, 575/775, 585/785.
An integrated course applying all prior material into pharmacy practice. Experience will be obtained in community, hospital and clinical rotations at selected extramural practice sites. The student should check with the Department for the regulations concerning this course series.
McCOMBS AND STAFF

538. Dispensing II. 5 hours.
Four hours lecture and three hours lab weekly.
Prerequisite: PHR 435/635, 437.
A relationship of factual and conceptual knowledge to prescription practice material emphasizing the most common drug-related problems. Development of a concept of the significance of these problems and formulation of problem anticipation approach for the pharmacy in community and institutional practice. A review of significant regulatory changes is included.
BRAUCHER, COBB, COOPER, DICKERSON, McCOMBS, THOMAS

*Permission of department.
540. Patient Assessment. 2 hours. 
Prerequisite: PHR 435/635, 437. 
Corequisite: PHR 575/775. 
An introduction to physical and laboratory assessment of the patient and patient survival management. 
BUNCE, COBB, WADE

524/724. Institutional Pharmacy. 3-5 hours. 
Prerequisite: Third Year Pharmacy Student; for graduate students: P.O.D.* 
A study of the history, organization, structure, and operational policies and procedures of various types of health care institutions. Consideration is given to the pharmaceutical services rendered in hospitals, extended care facilities and nursing homes. 
FECHTEL, HARTLEY, McCOMBS

585/785. Disease States and Therapeutics. 5 hours. 
Prerequisite: PHR 435/635. 
A discussion of disease states with emphasis on procedures involved in restoring the patient to normal health. 
COOPER, SPRUILL, STAFF

Elective Courses

508/708. Parenteral Therapy. 3-5 hours 
Prerequisite: PHR 350, 434/634, 447, or P.O.D.* 
Procedures for establishing and administering an IV admixture service, technical aspects of compounding and administering parenteral preparations and the principles of patient care, e.g., principles involved in diagnosis of imbalance, prescribing effective parenteral therapy and monitoring results. 
COBB

527/727. Hospital Administration and Management. 5 hours. 
Prerequisite: PHR 524/724 or P.O.D.* 
A study of the history, types, organizational structure, and operational policies and procedures of hospitals. Emphasis is given to the role and function of each department and how it relates to the pharmaceutical services as well as problems arising from internal and external factors. 
FECHTEL

560/760. Clinical Seminar. 3-5 hours. May be repeated for a maximum of 20 credit hours. 
Variable lecture and lab hours weekly. 
Prerequisite: Third Year Pharmacy Student; for graduate students: P.O.D.* 
Lectures involve clinical case presentations including aspects of etiology, pathology, prognosis and treatment of disease. Laboratories involve teaching rounds and case work-up at local hospitals. 
FRANCISCO

*Permission of department.
570/770. Clinical Clerkship. 3-5 hours. May be repeated for a maximum of 20 credit hours. 
Prerequisite: Third Year Pharmacy Student; for graduate students: P.O.D.*
The clerkship involves instruction in pharmacy practice in a clinical setting under the direct supervision of a professional practitioner. Clerkships are available in a number of community and institutional settings.
MEUNIER, THOMAS

594. Prescription Accessory Products. 3 hours.
Prerequisite: Second Year Pharmacy Student.
A study of accessory products related to prescriptions, sickroom needs, rehabilitation and convalescent equipment, surgical supports and other health-related appliances.
MEUNIER, THOMAS

595. Household and Animal Health Products. 3 hours.
Prerequisite: Second Year Pharmacy Student.
The study of fumigants, rodenticides, insecticides, fungicides, weedicides, parasiticides and toxins, serums, vaccines, and related products commonly sold in the drugstore. Ethics, economic and legal aspects will be stressed.
DICKERSON, KEMP

INTERDEPARTMENTAL COURSES

Required Courses

310. Pharmacy Orientation. 2 hours.
Prerequisite: First Year Pharmacy Student.
An introduction to the profession covering an historical perspective, current trends and future opportunities.
ANSEL, COOPER, ENTREKIN

Elective Courses

496H, 497H, 498H. Directed Study and/or Projects (Honors). 5 hours each.
Prerequisite: Honors Student in Pharmacy.
These courses afford Honors students the opportunity to engage in individual study, reading or projects under the direction of a project director.
STAFF

499H. Honors Thesis. 5 hours.
Prerequisite: Honors Student in Pharmacy.
This course provides the opportunity for an Honors student to undertake individual research in the field of his/her major or in a closely related field.
STAFF

521/721. Special Topics in Pharmacy. 3-5 hours. May be repeated for a maximum of 20 credit hours.
A study of specialized pharmaceutical systems, processes and techniques, including assignment of current literature and student presentations.
STAFF

598. Undergraduate Research Problem. 3-5 hours. 
May be repeated for a maximum of 20 credit hours.
Prerequisite: Second Year Pharmacy Student.
An introduction to research. The course is designed to acquaint the student with the techniques of research. A problem will be assigned, and the student will be expected to do library and lab work necessary to prepare an acceptable report.
STAFF

Graduate Courses

900. Research in the Pharmaceutical Sciences. 1-10 hours, repeatable for maximum 100 credit hours. 
Independent laboratory investigation under faculty direction on approved problems in various fields of the pharmaceutical sciences.
STAFF

930. Thesis. 1-15 hours.
STAFF

Required Non-Pharmacy Courses

The following courses in the pharmacy curriculum are taught by the faculty of the College of Arts and Sciences. A description may be found in the College of Arts and Sciences section of The University of Georgia Undergraduate Bulletin.

MIB 402. Microbiology for Pharmacy Students. 5 hours.

STA 300. Statistical Methods for Pharmacy. 3 hours.

ZOO 312-312L. Anatomical Basis for Medical Physiology. 5 hours.

DOCTOR OF PHARMACY CURRICULUM

550. Physical Assessment. 3 hours.
Prerequisite: Admission to Pharm.D. program.
Advanced techniques of physical assessment of drug and disease effects.
LONGE

551. Seminar in Medical Care Problems. 1 hour.
Prerequisite: Admission to Pharm.D. program.
An orientation to medical care problems for the doctor of pharmacy student.
BRAUCHER

*Permission of department.

26/The University of Georgia Bulletin
552. Advanced Drug Information. 3 hours.  
Prerequisite: Admission to Pharm.D. program.  
Practical methods of retrieval, analysis and elucidation of drug information will be presented.  
MAY

554. Applied Pharmacokinetics and Drug Analysis. 5 hours.  
Prerequisite: Admission to Pharm.D. program.  
Application of pharmacokinetic principles to design a dosing regimen, new drug evaluation, and analytical technique selection and evaluation.  
FRANCISCO, JUN, STEWART

555. Clinical Conference. 1 hour. May be repeated for a maximum of 6 credit hours.  
Prerequisite: Admission to Pharm.D. program.  
Presentation of patient case and pertinent literature in grand rounds fashion.  
SPRUILL, TAYLOR

561. Pathophysiology I. 2 hours.  
Prerequisite: Admission to Pharm.D. program.  
An overview of pathophysiologic processes to rationally apply principles of drug therapy.  
ERWIN

562. Pathophysiology II. 4 hours.  
Prerequisite: Admission to Pharm.D. program.  
Advanced presentation of pathophysiologic principles and concepts to human disease and pharmacotherapy.  
DIPIRO, TAYLOR

571ABC. Advanced Clerkship I. 571AB 4 hours each; 571C 1 hour.  
Prerequisite: Admission to Pharm.D. program.  
Clinical practice in outpatient and inpatient settings.  
ERWIN AND STAFF

572ABC. Advanced Clerkship II. 7 hours each.  
Prerequisite: Admission to Pharm.D. program.  
Clinical practice in outpatient and inpatient settings.  
TAYLOR AND STAFF

573. Advanced Clerkship III. 14 hours.  
Prerequisite: Admission to Pharm.D. program.  
Clinical practice in inpatient and outpatient settings.  
COOPER AND STAFF

574. Pharmacy Problem Solving I. 5 hours.  
Prerequisite: Admission to Pharm.D. program.  
A comprehensive presentation of basic research methods, study design, pilot and feasibility studies and techniques of evaluation and justification applied to patient situations.  
COOPER AND STAFF

577, 578, 579. Doctor of Pharmacy Project I, II, III. 1 hour each.  
Prerequisite: Admission to Pharm.D. program.  
This sequence of courses requires: preparation of an acceptable project proposal (577); collection and evaluation of data (578); and both oral and written presentation of an acceptable report (579).  
COOPER AND STAFF

587, 588, 589. Advanced Therapeutics I, II, III. 4 hours each.  
Prerequisite: Admission to Pharm.D. program.  
An advanced, comprehensive presentation of disease states with emphasis on procedures involved in restoring the patient to normal health.  
DIPIRO, McCALL AND STAFF

*Permission of department.
